NOW OPEN!!! NEW Palmdale Facility

MAGNETOM Verio 3T + 70cm + Tim
First 3T MRI in the Antelope Valley

Introducing our brand new state of the art Siemens Magnetom Verio 3T, featuring 70-cm open-style bore. The Verio is designed to accommodate large patients, as well as ease fears from claustrophobic patients. The Verio offers a new software program that will allow for faster exams and improved patient positioning. Advanced Imaging Center is the first to offer this technology within a 70 mile radius.

Announcing our new Hologic Selenia mammogram with CAD (Computer-Aided Detection). Our new mammogram will be able to identify regions of interest and bring them to the attention of the radiologist, helping to decrease false negative readings. The Hologic Selenia features a selenium based direct capture technology that eliminates light diffusion completely, providing perfect clarity and exquisite image quality. Our Hologic Selenia mammogram can help detect cancer up to 2 years before it can be found by a physical examination. This amazing machine will be available in our new Palmdale facility mid July

Hologic Selenia with CAD

Siemens Biograph 40 Slice PET-CT

Presenting our new Siemens Biograph 40 slice PET-CT, which is yet another first to the Antelope Valley, and is the only one of its kind within a 100 mile radius. Our 40 slice PET-CT is capable of performing a Coronary CTA. The Biograph is also capable of performing two scans at once time which decreases the scan time. Patients will appreciate the faster scan times, and doctors will be amazed at the high quality of the 2D and 3D images it produces.

Look at everything Advanced Imaging Center has to Offer!!*

- 3T Ultra-High Field Open-Bore MRI • Open MRI • PET Scan • Multi-Slice CT Scan • High Field MRI
- 4D Ultrasound • X-Ray • Screening Heart & Body Exam • Non-Invasive CT Coronary Angio
- Digital Mammography • Virtual Colonoscopy • Bone Densitometry • 40-Slice PET CT • 64-Slice CT
